

ASHLEY GOH

ashley.q.goh.26@dartmouth.edu ■ 603-577-0713 ■ 9 Majestic Ave, Nashua, NH

EDUCATION

2022 - 2026	DARTMOUTH COLLEGE <i>Bachelor of Arts, Computer Science, Minor in Human-Centered Design</i> ■ High Honors Thesis: <i>Simulation-Guided Prioritization and Implementation of Social Loafing Interventions in CS Group Projects</i> ■ Relevant Courses: Software Design and Implementation, Discrete Math, Algorithms, Design Thinking, System Dynamics, Full-stack Web Development, Analysis of Social Networks, Social Entrepreneurship, Security and Privacy, Research Methods for Human-Centered Design, Database Systems, Linear Algebra, Machine Learning and Statistical Data Analysis, Probability, Artificial Intelligence, Intro to Engineering, Design Survivor, Designing with Emerging Technologies	Hanover, NH
Summer 2023	TUCK BRIDGE BUSINESS PROGRAM <i>Tuck School of Business at Dartmouth College</i> ■ Participated in a highly-selective program taught by MBA faculty, providing in-depth introduction to accounting, finance, microeconomics, spreadsheet marketing and management communication ■ Performed a team-based valuation analysis of Chipotle, which included financial and strategic assessments, a DCF analysis, and a final presentation to senior executives	Hanover, NH

EXPERIENCE

Summer 2025	AUTOMATION, DATA QUALITY, & TECHNOLOGY SUMMER 2025 ANALYST <i>Corporate Audit, Bank of America</i> ■ Took a task that takes 40+ hours per auditor per quarter and completed 90% of it within 1.5 minutes by building automation pipelines in Alteryx and Python ■ Partnered directly with a Senior Vice President to audit new consumer product consent compliance (Q1), leveraging SQL in Teradata to identify risk indicators and ensure regulatory adherence, taking ownership over CDs and IRAs ■ Got Alteryx Designer Core Certified within four weeks	Charlotte, NC
Spring 2024 - Present	DESIGN THINKING TEACHING ASSISTANT <i>Thayer School of Engineering at Dartmouth College</i> ■ Mentor teams across six human-centered design projects, providing weekly feedback on prototyping, user research, and iterative development ■ Teach hands-on design skills including foam core modeling, sewing, video editing (iMovie), and digital prototyping (Adobe Photoshop) ■ Led a full 2-hour class session, stepping in for faculty due to illness ■ Secured a \$1,500 DCAL grant to develop a Generative AI design challenge as the course's final project	Hanover, NH
Fall 2023 - Winter 2025	USER EXPERIENCE DESIGNER <i>Dartmouth Design Corps, Design Initiative at Dartmouth (DIAD)</i> ■ Collaborated with interdisciplinary teams to apply human-centered design methods to real-world challenges faced by Dartmouth organizations ■ Conducted user research, prototyped solutions, and iterated based on stakeholder feedback to deliver impactful design outcomes ■ More info: dartgo.org/design-corps	Hanover, NH
Winter 2024 - Spring 2024	SOFTWARE DESIGN AND IMPLEMENTATION LEARNING FELLOW <i>Computer Science Department at Dartmouth College</i> ■ Supported student learning by facilitating group problem solving, leading small-group discussions, and offering in-class academic support during lectures and labs ■ Served as Scrum Master for three student teams during a three-week agile software development sprint, guiding task planning, stand-ups, and retrospectives ■ Participated in a weekly pedagogy seminar to enhance teaching strategies and reinforce collaborative learning practices	Hanover, NH
Fall 2023 - Winter 2024	STUDENT OPERATIONS AND OUTREACH ASSISTANT <i>Tuck School of Business at Dartmouth College Undergraduate Programs</i> ■ Maintained and organized database on Slate for past, current, and prospective applicants ■ Automated data integration workflows to consolidate hundreds of Excel files into a centralized master database, improving efficiency and reducing manual entry	Hanover, NH
Winter 2022 - Fall 2023	UNDERGRADUATE RESEARCHER <i>Machine Learning Lab at Dartmouth College, Advised by Bo Zhu (currently at Georgia Tech)</i> ■ Collaborated with two graduate students on a two-term research project exploring neural graphics primitives for high-resolution 2D and smooth 3D object reconstruction ■ Self-learned linear algebra in two weeks to contribute meaningfully to model development and code implementation ■ Implemented signed distance functions using Taichi and NVIDIA Instant-NGP, achieving a 3× reduction in training time for neural scene representations ■ Presented findings at the Wetterhahn Undergraduate Research Symposium	Hanover, NH

AWARDS

- HackDartmouth IX 2024 - Best Use of AI in Education - built an AI-powered web app for designing lesson plans using pedagogical methods
- Mathworks Math Modeling Challenge 2021 - Honorable Mention - received a \$1,000 scholarship

PERSONAL

- Technical Skills: Alteryx Core Certification, Certified Scrum Master (CSM), Java, C, Python, SQL, R, Javascript, HTML, CSS, Alteryx, React, Node.js, MongoDB, AWS, Unix, APIs, Bash, Git, Figma, Microsoft Excel, Microsoft Powerpoint, Adobe Creative Suite
- Hobbies: playing soccer and tennis, hiking, skiing, playing Mahjong and poker, learning Spanish, making strawberry matcha lattes
